Artificial Light Photography PHOTO 64A

Instructor: Jason Anaya Email: anayaphoto@mac.com

Assignment 7 Recreate.

The purpose of this assignment is to introduce you to the concept of style.

You will have to research photographers. They can be from any time period, try to identify their style. Style comes from lighting, subject matter, posing, composition and processing. If your image was hanging on the wall in a gallery how would anyone know that you took it? (Besides your signature) Once you are able to recognize style, then you can start to develop your own.

There are 2 ways to do this assignment.

Option 1: Recreate an image exactly as the photographer has done. You should be mostly concerned with lighting. Then after you figure out your lighting worry about subject, composition and processing.

Option 2: Create your own image in the style of the photographer. We should be able to put your image next to a few of theirs and it should look like they took it.

Turn in:

-Your image (1)

-The photographers Image (or images) for comparison. Only your image will be in the portfolio.
